

Blueprint Reading & Material Take-Off

June 22, 23, 29 & 30, 2022

8:00am - 11:00am Virtual Instructor Led

This class is brought to you in partnership with the Northeastern Retail Lumber Association (NRLA)

Training class includes an introduction to construction drawings and developing a take-off and/or estimate.

- Develop an operational understanding of drawings and their use and learn to read and interpret the drawings.
- Explore how to use floor plans, elevations, sections and details to figure out a project's material needs.
- Develop efficient estimating skills (including consistency and documentation) and understand best practices.
- Examine how to avoid the common pitfalls in estimating and quantity take-offs.

Instructor: Randall (Randy) Hajeck has over 3 decades in the construction industry, both as an owner of his own company and also as an Adjunct Instructor at Hudson Valley Community College in the Civil Engineering and Construction Technologies Departments.
